

Your new website.

A complete rebuild of payyouadvisory.com. 137 pages, built around one idea: one application, 25+ lenders, one credit enquiry.

LIVE PREVIEW

pay-you-advisory.vercel.app

PREPARED FOR

Kay Bee Bio-Organics Private Limited

DATE

22 August 2026

What has been built

137

Pages

Every one written, not generated from a template

112

Local landing pages

16 areas x 7 products

12

Partner logos

17 lenders named in full

3

Working calculators

EMI, eligibility, balance transfer

Built to be found

Every page is delivered as finished HTML, so Google, Bing and the AI assistants read it instantly rather than waiting for scripts. Each page carries its own title, description and structured data.

Built to be fast

No page builder, no plugins, no database. Pages are served from a global network as static files, which is the fastest a website can be and the hardest to take down.

Built to be trusted

Rates and eligibility figures are indicative and say so. The notice that PayYou is an advisory firm and not a lender appears on every page, designed to be read rather than buried.

Built to convert

Your phone number is visible on every screen, at the top, in the hero, and on a bar that follows the reader on mobile. Three calculators answer the visitor's first question before asking them for anything.

Your brand, not a new one

The colours in this document and across the site are taken from your own logo: the royal blue and red sampled directly from the artwork on payyouadvisory.com. Your logo, and your twelve partner bank logos, are used as published.

The eight products, each with its own page

PRODUCT	SECURITY	TENURE
Personal Loan	Unsecured	12 – 60 months
Business Loan	Unsecured · MSME	12 – 60 months
Home Loan	Secured · Long tenure	Up to 20 – 30 years
Loan Against Property	Secured · Large ticket	Up to 15 – 20 years
Car Loan	Secured · Vehicle	Typically up to 7 years
Gold Loan	Secured · Same day	Short tenure, commonly 6 – 24 months
Working Capital & LRD	Business facilities	Renewable annually (CC/OD); up to the lease term for LRD
Insurance Plans	Protection	Annual to whole-of-life, by product

3

Offices in Maharashtra

Chinchwad · Baramati · Phaltan

Homepage, desktop. The phone number and eligibility check are both visible without scrolling

The headline states the one thing no competitor says plainly: apply to eight banks yourself and you collect eight hard enquiries. We shortlist, then submit to one.

Products and lenders

What we place

Eight products, and what each one is actually for.

Rates and limits below are the lowest across our partner panel, not offers. Where a lender has not published a figure we say what it depends on rather than invent one.

PayYou Advisory · Loan advisory across Pune, PCMC, Baramati & Phaltan Mon - Sat: 9:30 am - 6:30 pm ☎ 020 2735 0855

Personal Loan

 **UNSECURED**

An unsecured loan against your income alone. Nothing is pledged, nothing is mortgaged, and the lender does not ask what you plan to spend it on.

RATE By profile AMOUNT By eligibility TENURE 12 - 60 months

Business Loan

 **UNSECURED · MSME**

Funding for stock, staff, machinery and expansion, assessed on your turnover and banking, not on what you are willing to mortgage.

FROM 10.50% UP TO ₹2 Cr TENURE 12 - 60 months

The panel

25+ lenders. We apply to one.

A single lender gives you one credit policy and one answer. The same file, the same person, the same income, the same property: approved at one institution and declined at another. The panel is not a badge; it is the product.

PayYou Advisory · Loan advisory across Pune, PCMC, Baramati & Phaltan Mon - Sat: 9:30 am - 6:30 pm ☎ 020 2735 0855

PAYOU Borrow Protect Tools Lenders About Careers Contact [Check eligibility](#) [+91 91755 35507](#)

Bank and NBFC names and marks are the property of their respective owners and appear here as factual references to institutions PayYou Advisory places business with. No endorsement of this website by them is implied.

BANKS 8

- ✓ **HDFC Bank**
- ✓ **Axis Bank**
- ✓ **State Bank of India**

The same file gets different answers

A cash-salaried applicant is an automatic decline at one lender and a routine approval at another. An MIDC leasehold shed is unfundable at most banks and ordinary business for three of the NBFCs on this list. The file did not change; the lender did.

How it runs

Four steps, and what does not happen at each.

Nothing is submitted anywhere until you say so. The credit check we run first is a soft one and leaves no mark on your report.

01

Tell us the requirement

Amount, purpose, and a rough picture of your income and obligations. Five minutes on the phone is usually enough to know whether this is straightforward or not.

- ✓ No documents needed at this stage.

02

We read your profile the way an underwriter will

Income, vintage, existing EMIs, credit report, and, for a secured loan, the property. This is where a file is either fixed or found to be unfixable, and it is the part most brokers skip.

- ✓ Soft check only. No hard enquiry on your credit report.

03

We shortlist the lenders you actually clear

Out of 25+ partners, usually two or three are genuinely right for a given profile. You see what each would offer (rate, amount, tenure, fees) side by side, before anything is submitted.

- ✓ You choose. We do not submit anywhere without your instruction.

04

One application, then disbursal

We submit to the lender you pick, manage the documentation and the queries, and stay on it until the money lands. One credit enquiry, not twenty-five.

- ✓ Sanction, rate and disbursal remain the lender's decision.

Home > Loans > Business Loan > Bhorari

Business Loan In Bhorari

The core requirement in Bhorari: machinery, a new job-work contract that needs stock funded upfront, or a customer who pays at ninety days. Turnover and vintage are usually strong; getting the ITR and GST to line up with the banking is the work.

+91 2725 35005 WhatsApp

Who borrows in Bhorari, and why it matters

One of Maharashtra's densest small-industry belts. Thousands of MIDC units doing fabrication, machining, moulding and job work, mostly proprietorships and partnerships with real assets, strong vintage and financials that understate what the business actually does.

- MIDC leasehold sheds are fundable, but only by lenders who take that tenure. Identifying them before applying is most of the job in this belt.
- Getting the ITR, the GST returns and the bank statements to tell one consistent story is what turns a decline into a sanction here. An underwriter is not reading them for the totals; they are reading them against each other.
- Ninety-day receivables against monthly wages is the defining local cash-flow problem, and a term loan is the wrong instrument for it.

AROUND HERE

Bhorari MIDC	Landward	Nashik Phata	Indrayani Nagar	423206	423209
--------------	----------	--------------	-----------------	--------	--------

The business loan itself

Funding for stock, staff, machinery and expansion, assessed on your turnover and banking, not on what you are willing to mortgage.

Full eligibility criteria, the document checklist, the rate drivers and the questions people actually ask are on the business loan page. They are the same wherever in Pune you are. What differs by locality is everything above.

Business Loan - Full detail →

Before you call, get a rough figure

Our eligibility calculator works in the way a lender does, on your income less the EMIs you already pay, which is what usually decides the answer. It runs in your browser and asks for no name, no number and no OTP.

Home · Calculators · EMI Calculator

What the EMI is, and what the loan actually costs.

The monthly figure, the total interest at the same size, the year-by-year split, and what paying a little extra each month would save. Total interest is promoted deliberately: choosing a tenure on the EMI alone is how people pay for the same thing twice.

+91 9776 33697 WhatsApp

TOTAL YOU WILL PAY ₹6,55,835

How it unwinds

What would paying a little extra do?

EXTRA EACH MONTH

₹ 0

One number worth knowing: flat versus reducing

Vehicle and consumer finance is still sometimes quoted at a "flat" rate, which charges interest on the whole original amount for the entire tenure, even though you have repaid most of it. It sounds far cheaper than it is.

QUOTED FLAT RATE	OVER 3 YEARS	OVER 5 YEARS	OVER 7 YEARS
9.00%	13.00%	15.00%	16.50%
9.50%	14.00%	16.50%	18.00%
10.00%	15.00%	18.00%	19.50%
10.50%	16.00%	19.50%	21.00%
11.00%	17.00%	21.00%	22.50%

Read the right-hand column: A "9% flat" loan over five years costs roughly the same as a 16% reducing-balance one. If a quote does not say which basis it is on, ask, and if the answer is flat, ask for the reducing equivalent in writing before you sign.

The other calculators

Eligibility → Balance transfer → All three →

These are estimates, not quotations. They compute standard reducing-balance mathematics on the figures you enter and exclude processing fees, insurance premiums, statutory charges and any lender-specific fees. What a lender will actually offer depends on your credit profile, your income, your existing obligations and, on a secured loan, the property. PayYou Advisory is a Direct Selling Agent and does not sell rates.

The same file gets different answers

Applying widely damages you

The cheapest advertised rate is often irrelevant

We are paid by the lender, and you should know that

Bank or NBFC. The difference from your side

Not a question of which is better. They underwrite differently, and which one suits you depends almost entirely on how standard your profile is.

	BANKS	NBFCs
INTEREST RATE	Generally lower, and on home loans linked to the RBI repo rate so it moves with policy.	Generally higher. The premium is for taking on files a bank's policy will not.
UNDERWRITING	Policy-driven and rigid. A profile that does not fit a template is declined rather than discussed.	More judgement, more flexibility. Cash income, thin credit files and unusual property are workable.
PROPERTY ACCEPTED	Mainstream residential and commercial with clean, conventional title.	Also MIDC leasehold, industrial sheds, godowns, Grampanchayat land and load-bearing structures.
SPEED	Slower. More checks, more layers, more queries.	Materially faster, which for a business with a deadline is sometimes the only thing that matters.
CREDIT SCORE	Strict floors. Below them the application does not progress at all.	Lower floors, priced accordingly. A route back for someone rebuilding a record.
BEST USED WHEN	Your profile is standard and you have time. This is the cheaper money.	Your profile is not standard, or the timing matters more than the rate.

The lender panel, and what each institution is genuinely good for

Where most of your customers will see it

Checked at eight screen sizes, from a 360-pixel budget Android to a 1920-pixel desktop. On every one of them, the call button is visible without scrolling.

What changes on a small screen

A call bar that follows

Once a reader scrolls past the first screen, a bar appears at the bottom with Call and WhatsApp. It is there for the whole page and disappears on desktop, where the number is already in the header.

Every tap target sized properly

Buttons and menu items are at least 44 pixels tall, which is the accessibility standard and the difference between a number that dials and one that misses.

Images sized for the connection

A phone is sent an image about a tenth the weight of the desktop version, with a blurred placeholder so the layout never jumps while it loads.

Tables that scroll, pages that do not

Wide comparison tables scroll inside their own frame. The page itself never scrolls sideways, which is the most common fault on a mobile finance site.

How this site is meant to be found

Most loan websites have five or six pages and compete for the same handful of searches. This one has 137, and most of them target a search a competitor is not answering at all.

PAGE TYPE	WHAT IT IS FOR	COUNT
Product pages	"personal loan in Pune", "loan against property Pune"	8
Local landing pages	"business loan Bhosari", "home loan Hinjewadi"	112
Calculators	"EMI calculator", "loan eligibility calculator"	4
Questions	"low CIBIL score loan", "cash salary loan"	1
Company, policy & landing	Trust signals that Google weighs heavily for finance	12
Total		137

Why the local pages matter most

Each of the 112 is written for that area specifically. Bhosari's page is about MIDC leasehold sheds and ninety-day receivables; Hinjewadi's is about approved-project lists and variable pay; Baramati's is about income that arrives in a season. They are different pages because they are different problems, and that is what keeps them ranking rather than being dismissed as duplicates.

Have a look at a few

Personal loan	pay-you-advisory.vercel.app/personal-loan/
Business loan in Bhosari	pay-you-advisory.vercel.app/business-loan-bhosari/
Home loan in Hinjewadi	pay-you-advisory.vercel.app/home-loan-hinjewadi/
Loan against property in Chakan	pay-you-advisory.vercel.app/loan-against-property-chakan/
Gold loan in Baramati	pay-you-advisory.vercel.app/gold-loan-baramati/
EMI calculator	pay-you-advisory.vercel.app/emi-calculator/

None of this replaces your Google Business Profile. For a local firm that listing still outranks everything, and genuine customer reviews on it will bring in more enquiries than any change to this website. The site is built to support that, not to substitute for it.

What is already in place

- **Every page pre-rendered.** Search engines and WhatsApp link previews see finished content, not an empty page waiting for scripts to run.
- **Structured data on every page.** Your business, address, opening hours, each loan product and every FAQ, in the format Google reads directly.
- **Your old links preserved.** Twelve addresses from the current site redirect to their replacements, so the ranking you already have moves across instead of being lost.
- **Sitemap and robots file generated automatically** from the site itself, so they can never fall out of date.
- **Written for AI assistants too.** A plain-language summary at [/llms.txt](#) tells ChatGPT, Claude and Perplexity what PayYou does — and, importantly, that PayYou is an advisory firm rather than a lender.
- **Secure by default.** HTTPS enforced, modern security headers, and no forms that could collect data insecurely.

What we still need from you

Six items. The first is the only one that blocks anything; the rest each make the site measurably stronger.

ITEM	WHY IT MATTERS
Confirm your track record	Your current homepage says “5 years of experience” and “100+ loans”; the About page says incorporated January 2026 with 50+ customers. We have used the conservative figures. Lending is a category where Google and customers both check.
CIN, GSTIN, IRDAI number	A registration number a visitor can verify is worth more than any adjective on the page. Goes in the footer of every page.
A named Grievance Officer	The complaints page has a full escalation path to the RBI Ombudsman. It needs a name.
Your Google Business Profile link	So the address and map pin on the site match it exactly. This is most of local ranking.
Logo files	The original vector, plus a white version. Your logo is currently only 166 pixels wide, which limits how crisply it can be shown.
Photographs of your office and team	The site currently uses licensed stock photography, credited openly. Real photographs of Chapekar Chowk will beat all of it.

One thing to decide soon

The site is live at a temporary address. Once payyouadvisory.com points here, everything moves across in a single change. Until then the preview and your current site are two copies of similar content, which is worth closing rather than leaving open.

Ready when you are.

Have a look at the live preview, and send anything that should read differently. Copy, figures and photographs are all quick to change; the structure underneath is built to take it.
